App Messenger Instructions

This document explains how to use App Messenger to send messages to your apps.

Selecting Apps:

Click the apps you would like to view subscribers for. Once an app is selected you can send messages to its subscribers.

Select Apps: *

Alabama SAF-T-Net (Android): ☐
Alabama SAF-T-Net (iOS): ☑
Baron Android Erick UGC (Android): ☐
Baron Android JD UGC (Android): ☐

Subscriber and User Generated Content (UGC) Markers:

On the map you may click "cluster" icons to zoom in to the cluster area. When you hover over a cluster icon, its cluster area is revealed by a blue polygon.

= 1 subscriber location.

= A cluster of 1-9 subscriber locations.

= A cluster of 10-99 subscriber locations.

= A cluster of 100 or more subscriber locations.

= 1 user submitted image.

= A cluster of 2 or more user submitted images.

Filtering Subscribers:

Filter subscribers on the map by the alert locations they selected in the app(s):

Filter Subscriber Alert Locations: *

☑ Home ☑ Work ☑ School ☑ Mobile

Drawing Polygons/Rectangles:

To send messages to only certain subscriber locations, use the polygon tool to draw polygons and rectangles on the map to isolate the message area. If you intend to send a message to all app(s) subscribers, then do not draw a polygon.
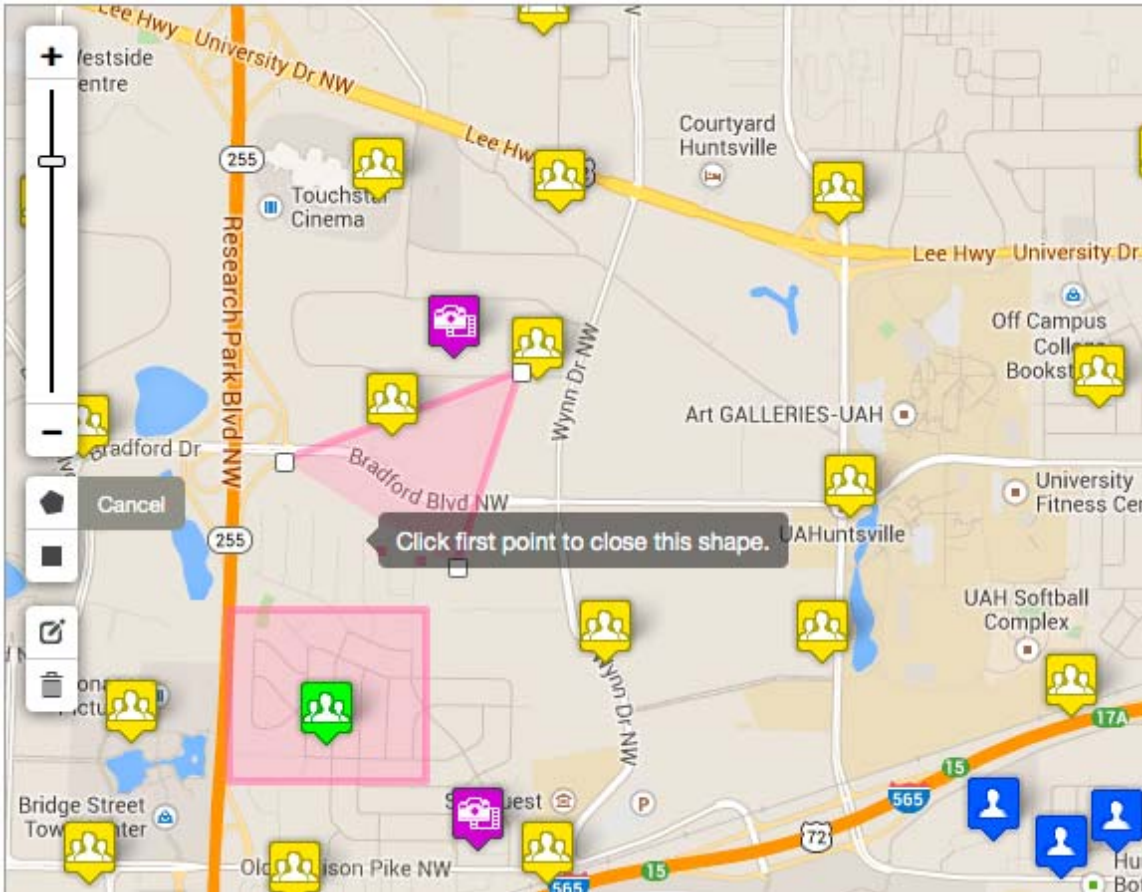

Removing and Editing Polygons:

Use the edit and trash icons to edit or remove the polygon(s) you have drawn. Be sure to click "save" after you edit or remove the polygon:
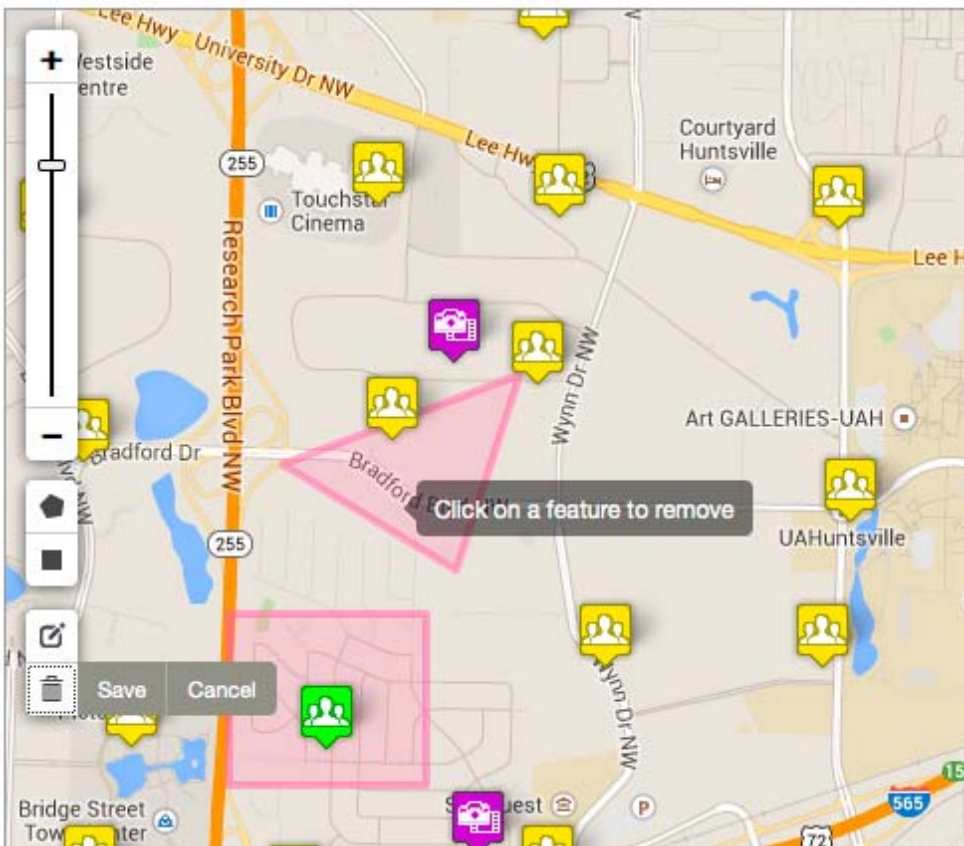

Sending Messages:

To send a message to subscribers in the polygon(s) you drew, or to the entire map in cases where no polygon is drawn, enter a message in the message field. Then enter your login password in the password field. After these two fields are filled in, click "Send Message":

User Generated Content (UGC):
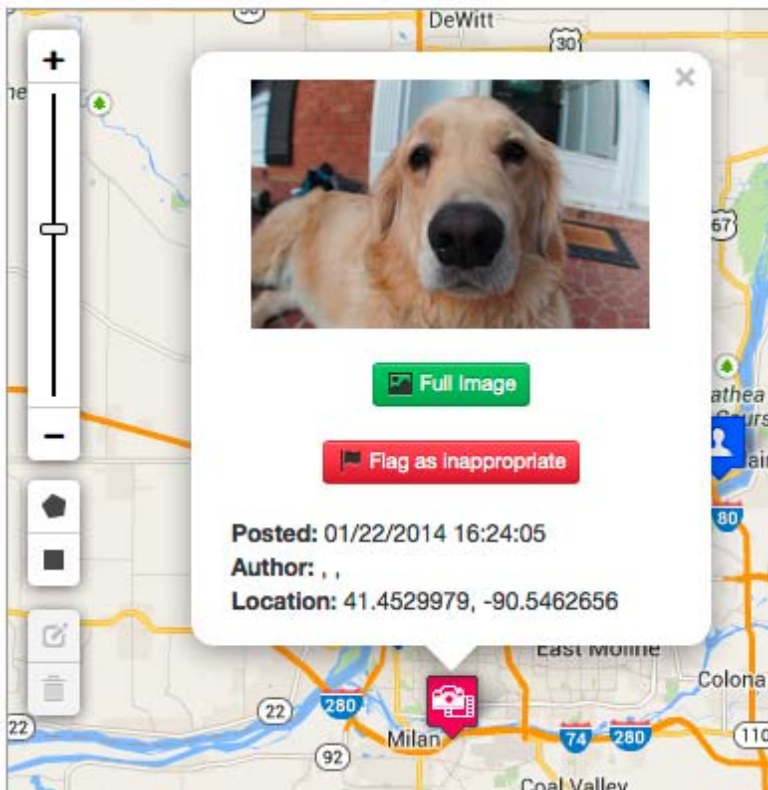

Click a UGC marker ( ) to open a popup showing a thumbnail and info:

Click a UGC "cluster" marker ( ) to zoom in and show the markers in that cluster:
On the UGC menu, click the "Show/Hide Gallery" button (Show/Hide Gallery) to view the UGC gallery. This

also contains items that were not geo-tagged and could, therefore, not be placed on the map:

The "Flag as inappropriate" button (**Flag as inappropriate**) *immediately* removes the picture from the map and gallery to be reviewed by moderators.

Weather (**Weather**):

Click the map to open a popup showing current weather conditions along with any special information related to the active weather layer:

REFLECTIVITY: 20 dBZ

CURRENT CONDITIONS:

NORTH WEST ALABAMA REGIONAL, AL, United States

Temperature: 18° F
Relative Humidity: 54%
Wind Speed: NNW 9 mph
Cloud Cover: 100% (Cloudy)
Visibility: 10.00 miles

CURRENT ROAD CONDITIONS: Slippery

CURRENT CONDITIONS:

NORTH WEST ALABAMA REGIONAL, AL, United States

Temperature: 18° F
Relative Humidity: 54%
Wind Speed: NNW 9 mph
Cloud Cover: 100% (Cloudy)
Visibility: 10.00 miles

Use the weather layer opacity slider to adjust the weather layer's visibility:

Weather Layer Opacity:

Change the active weather layer:
